# Passport Photo Code UK Guide
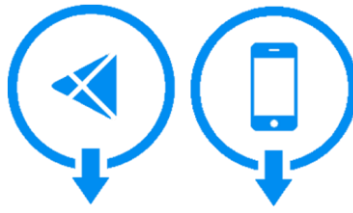

Best Passport Photo App for iOS & Android

Introducing a Code for Digital Passport Photo

Her Majesty's office is introducing a way for customers to retrieve a digital photo when they renew their passport online.

With this new solution, booths and shops in the UK will be able to give customers a photo code with their printed passport photos.

When customers apply online, they can use this code to retrieve their digital passport photo taken at a booth or by a photographer.

How it works?

STEP 1

Download "Passport Photo code UK" from App store or Play Store

STEP 2

Read general guidelines or watch our video before starting your process.

STEP 3

You'll need someone to help you to take your photo by smart phone.

STEP 4

Submit your selected photo

STEP 5

Your code will be delivered within 2-24 hours(if your photo meets the rules).
